

RTC - Iligan Profile

RTC - Iligan is ideally and well situated within the Iligan-Cagayan Corridor. It is 242 meters above sea level and has a sloping terrain from the southdownward. It is very accessible since it is only ten kilometers from the city proper and lies along the national highway. There is availability of sufficient electricity since it taps its power directly to the National Transmission Corporation/National Power Corporation.

RTC-Iligan is a clean and green training institution and is well managed by competent and dedicated personnel. The center provides quality services to satisfy its client's specific needs.
